## Profile

Experienced Fullstack Web Developer, certified Google IT Support Professional, and certified IBM Data Science Professional. Highly skilled in Web Development, and Mobile-Web Hybrid Applications. I help small business owners create web solutions so they can diversify their customer base and efficiently deliver value online.

## Work experience

**Sole Proprietor, Web Specialist** **06/2018 – present**  
Remy Francis Web Development, Corinth, Gros Islet, SAINT LUCIA

A small business dedicated to delivering Websites, E-Commerce, Web Applications, Progressive Web Applications and Hybrid Mobile App solutions for small-to-medium sized companies and individuals transitioning into online platforms.

**Front-End Web Developer** **02/2018 – present**  
Blue Scale Studios Inc., Saint Lucia

Blue Scale Studios Inc. is a Start-Up company geared towards the development of SaaS products (Software as a Service). We design, develop, and distribute cross platform and native mobile solutions for personal, commercial and industrial applications (Apps). As a Front-End Web Developer, I am mainly responsible for developing static websites and implementing visual elements that users see and interact with on the client-side of web applications. My responsibilities include website maintenance and improvements, collaboration with Back-End Developers and Web Designers, building solutions for users and customers, bug-fixing and upholding brand consistency on the web.

**IT Support Specialist, Sales Representative, Cashier** **08/2009 – present**

Island Water World, Rodney Bay Marina, St. Lucia

Handle various facets of Information Technology of the Saint Lucian branch of Island Water World, a multi-island boat chandlery franchise. Responsibilities include maintenance and troubleshooting of computer hardware, the network, procedure documentation, computer software, and general customer service. Also responsible for creating sales and VAT reports as well as customer support for the Loyalty Program.

**Webmaster** **08/2007 – 11/2010**  
Nationwide Taxi Business Services, Castries, St. Lucia

Design, development and maintenance of NTBS website, where visitors to St. Lucia may acquire information about the various tour packages which the company offers

**Web Design and Graphic Design** **06/2009 – 05/2010**  
Cre8tive Designs, Corinth, St. Lucia

Design and publishing of marketing material such as business cards, flyers, brochures, and websites.

**Telesales Agent** **03/2009 – 08/2009**  
LIME, Sans Souci, St. Lucia

**Webmaster** **08/2008 – 11/2008**  
Caribbean Real Estate , Rodney Bay, St. Lucia

Managed a website where potential customers may view and purchase properties in St. Lucia. Other responsibilities included IT support in a small office of four computers.

## Education

**Bachelor of Science - BS** **2019 – 2025**  
University of London

## Education

**Cambridge A Levels**  
Sir Arthur Lewis Community College

2006 – 2008

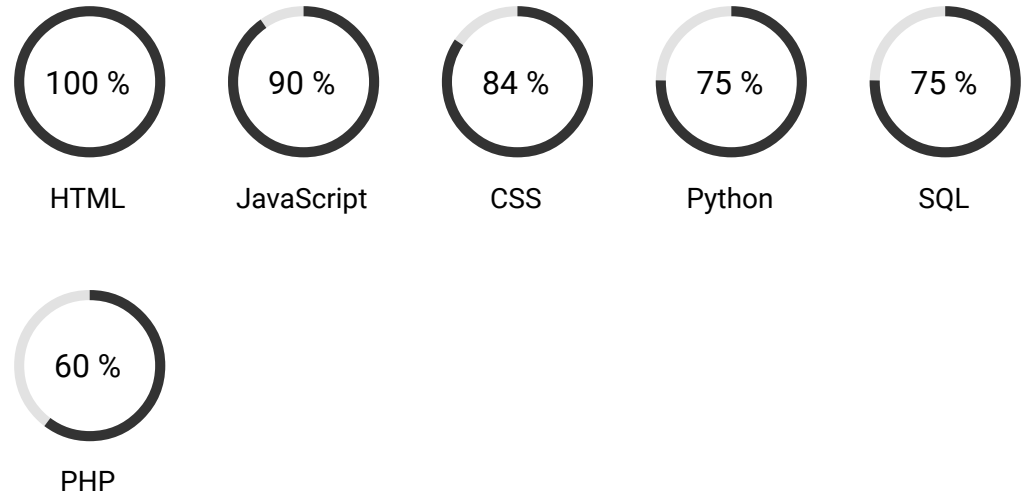

**CXC's**  
St. Mary's College

2001 – 2006

## Skills

## Languages

## Projects

**Cacao St. Lucie**  
09/2019  
<http://www.cacoasaintelucie.com/>

Founded in 2011, Cacao Sainte Lucie is passionate about creating a truly indigenous artisan chocolate company. I had the honour of being chosen to code their business website, collaborating with a professional graphic designer.

**RFDW Website**  
10/2017  
<http://www.remyfrancis.com>

Website for my business, Remy Francis Web Development (RFDW). I utilized the MDB library (which includes Bootstrap), HTML, CSS, PHP and Growth-Driven Design principles in order to build, maintain and grow this website which functions as a marketing funnel for prospective customers.

**Pig Dice Game**  
01/2019  
<https://pig-dice-game.herokuapp.com/>

An interactive JavaScript-based dice game. Making this was good practice on DOM manipulations and events with JavaScript.

**Natours**  
12/2018  
<https://github.com/remyfrancis/Natours>

A mock-website for a Tours company built using advanced CSS and Sass coding. Link

## Projects

to GitHub for code review provided.

### Island Wide News

04/2013

Responsible for the design, development, digital marketing and management of the Island Wide News website and social media, directing its online growth as St. Lucia's finest satirical news outlet. Also responsible for copywriting and editing of writers' articles.

## Certificates

### Full Stack Web Development Specialization

08/2017

Coursera

<https://www.coursera.org/account/accomplishments/specialization/certificate/QL55EE4R3QEN>

In this specialization I learnt to:

- (1) Design a full-fledged Web client application using Bootstrap and AngularJS
- (2) Design a hybrid mobile application using the Ionic framework and Cordova
- (3) Develop server-side support for the web application using Node.js, ExpressJS together with database support using MongoDB.

### Front-End Web Development With React

09/2018

Coursera

<https://www.coursera.org/account/accomplishments/verify/237L3ZVTD2LL>

In this course I:

- Became familiar with client-side Javascript application development and the React library
- Became able to implement single page applications in React
- Became able to use various React features including components and forms
- Became able to implement a functional front-end web application using React
- Became able to use Reactstrap for designing responsive React applications
- Became able to use Redux to design the architecture for a React-Redux application

### Data Science Professional Certificate

02/2019

IBM

[https://www.youracclaim.com/badges/916ed483-8fa6-4e1c-a953-8b4b484913d0/linked\\_in\\_profile](https://www.youracclaim.com/badges/916ed483-8fa6-4e1c-a953-8b4b484913d0/linked_in_profile)

Learned to utilize data science principles and techniques with demonstrated ability to solve for real-world problems.

Applied Data Science methodology:

- working with Jupyter notebooks
- creating Python apps
- accessing relational databases using SQL & Python
- using Python libraries to generate data visualizations
- performing data analysis using Pandas
- constructing & evaluating Machine Learning (ML) models using Scikit-learn & SciPy and apply data science & ML techniques to real location data sets.
